Address:

Titusville

Price:

600.00 \$

159000 miles on odometer but refurbished engine replaced in 2016. Price is low because it has a leak and overheats, could possibly be the radiator or coolant fans(I noticed the temperature does it start going up until I stop at a red light) The water pump and serpentine belt was replaced back in November 2019 and I also had a COMPLETE brake job done .. Also the clicker for windshield wipers broke off so I had to take off the wipers because they wouldn't turn off, still have them and they're easy to put back on for when needed
